

Your
key to the
Western
Balkans

We act as gateway to the region and provide you with the capacity to work across several jurisdictions.

Planning ahead means for us seeking close co-operation with “neighbours”, placing emphasis on already existing local strengths and advance in European integration.

WE OPEN NEW DOORS

LGP Legal Solutions is an exceptional alliance of well-rooted law firms offices throughout Central Europe as well as the Western Balkan area. You will find consultancy focused on company law, privatisation, public law, infrastructure and energy.

A further point of focus is consultancy of states to harmonise their legal systems and adapt them to international standards.

WE FORGE NEW PATHS BEYOND LOOSE NETWORKS

Our competitors work primarily on the basis of a franchise system: Local partners operate under the name of a Western law firm.

These structures can never have the competence of long-established firms.

We have developed a different strategy:

We have built an alliance of strong and independent law firms. All members of LGP Legal Solutions are well-established in their respective home markets and can find the right, customized counseling solution for a given project. Thus, we combine strong roots and know-how in local markets on the one hand with international experience on the other.

YOUR RIGHT
HAS NO BORDERS
FOR US –
ESPECIALLY IN
THESE
LEGAL FIELDS:

Corporate & Tax
M & A
Labour Law
Project Finance
Real Estate
Public Procurement
EU-Aid,
Public Funding

Intellectual Property
IT & Telecommuni-
cations Law
Competition
Media Law

OUR SOLUTIONS
ARE
COMPREHENSIVE
AND HOLISTIC

Legal advice for us means more than just looking up statutes and paragraphs. We get things moving with this scope of services:

- training and coaching clients on optimum corporate management in compliance with international standards (compliance)
- developing corporate management guidelines for non-listed companies
- lobbying political decision-makers for legislative reforms
- "outsourced" legal department
- "start-up package" for technology businesses in the Western Balkan region
